

ONE-DAY WORKSHOP

Economic Evaluation in Health

What an ICER is, where it comes from,
and what it should and should not decide

Wednesday, 23 September 2026
09:30 to 16:30

SAMVAD (Board Room)
First Floor, Medical College Building

No registration fee
Workshop kit provided

ABOUT THE WORKSHOP

Health technology assessment now shapes what the Indian health system pays for, from the national immunisation schedule to the packages funded under PMJAY. The questions it answers come from clinicians and researchers, and the evidence it rests on is produced in institutes like this one. This one-day workshop is an introduction for anyone who wants to **read that literature critically**, judge whether a published cost-effectiveness claim deserves belief, and **take part in producing it**. It is built around the **Indian Reference Case** for health technology assessment, and every worked example is a published Indian study. Participants work in small groups on one real evaluation from their own field, carried through the whole day rather than read cold at the end. **No prior training in health economics, modelling or statistics is required.**

REFERENCE CASE
PRINCIPLES

PROGRAMME AT A GLANCE

MORNING

09:30 – 11:15

- ▶ Where economic evidence enters health policy
- ▶ What economic evaluation is, and what it is not
- ▶ Thresholds, opportunity cost and budget impact

MIDDAY

11:35 – 13:15

- ▶ Costing your own service — worksheet exercise
- ▶ Framing: decision problem, comparator, perspective and time horizon

AFTERNOON

14:05 – 16:30

- ▶ Outcomes, discounting, the ICER and net monetary benefit
- ▶ Modelling in half an hour
- ▶ Uncertainty: DSA, PSA and the acceptability curve
- ▶ Group appraisal report-back

WORKSHOP HIGHLIGHTS

- ✓ Eight published Indian evaluations, appraised in small groups across the day
- ✓ A printed costing worksheet for a service in your own department
- ✓ Six interactive widgets that run on a phone and stay online afterwards
- ✓ Short live polls in every session, so nobody sits passively
- ✓ The Indian Reference Case as a one-page appraisal form to take away
- ✓ Every citation verified against PubMed, with a full reading list
- ✓ Slides, handouts and widgets remain freely available online

WHO SHOULD ATTEND

- Faculty, senior and junior residents, and research project staff, across departments
- Anyone planning, or invited to co-investigate, a cost-effectiveness study
- Researchers adding an economic component to a protocol or a grant application
- Anyone who reads, reviews or is asked to comment on cost-effectiveness evidence
- Departments considering submitting a topic to HTAIn through the Resource Centre

Prerequisites: None. No prior training in health economics, modelling or statistics is assumed. All exercises are paper-based.

PATRONS

CHIEF PATRON

Lt Gen (Dr) Narendra Kotwal, AVSM, SM, VSM (Retd)

Executive Director & CEO, AIIMS Bhopal

PATRONS

Prof. (Dr.) Rajnish Joshi

Dean (Academics) &
Academic Head, School of Public Health
